PROJECTS

Portability Hub [Link](#)

- Utilized HTML, CSS, and JavaScript to build the user interface, inspired by Usability Hub platform, faithfully recreating its essential features, layout, and design.
- Implemented the Sign up and Log in functionality in the frontend part.
- Ensuring that the website adapts and displays appropriately across different devices and screen sizes, providing an optimal user experience.

Calculator [Link](#)

- Developed a Java-based calculator application to simulate the functionality of a basic calculator.
- Implemented arithmetic operations including addition, subtraction, multiplication, and division.
- Implementation of a graphical user interface using Java's Swing and JavaFX libraries to enhance user experience.
